Aims and Scope: *Neurochemistry International* publishes (within 5 months of acceptance) papers primarily concerned with the metabolism and function of the nervous system. Papers are also published which deal with the chemical aspects of the anatomy, pathology, physiology, pharmacology and genetics of the nervous system, as well as the biochemistry of the nervous tissues. The journal also publishes material showing the relationship of fundamental neurochemical observations to basic neurology, neuropharmacology, chemical pathology and neurotransmission of the nervous system.
The Executive Editors and Publisher would welcome comments from authors concerning improvements and/or clarification on the aims and scope of the journal.

Publishing Office: *Journals Production Unit, Pergamon Journals Ltd, Hennock Road, Marsh Barton, Exeter, Devon EX2 8NE, U.K.* (Tel. *Exeter (0392) 51558*; Telex *42749*)
Subscription and Advertising Offices: *Pergamon Journals Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K.* (Tel. *Oxford (0865) 64881*; Telex *83177*)

Subscription Rates (1987): Annual institutional rate (1987) DM 615.00; 2-year institutional rate (1987/88) DM 1168.50; personal subscription rate for those whose library subscribes at the regular rate (1987) DM 171.00. Special rates for members of the International Society for Neurochemistry and the European Society for Neurochemistry are available on request. All prices are subject to amendment without notice.
Microform Subscription and Back Issues: Back issues of all previously published volumes are available in the regular editions and on microfilm and microfiche. Current subscriptions are available on microfiche simultaneously with the paper edition and on microfilm on completion of the annual index at the end of the subscription year.
